5th September 2017,

**Bikeability Level 2 Cycle Training
Year 5 and 6 Pupils**

'Bikeability' is the modern form of Cycling Proficiency updated for the 21st Century. It provides appeal and incentive for children and parents alike to undertake quality cycle training to ride safely and responsibly on modern roads. Cycle training is the vital life-skill required before 'more children cycling, more safely, more often' can become a reality, and all the associated benefits of a new generation of young people cycling can be realised, including better health and less congestion.

This training is taking place for the children in Year 5 and 6 during the week commencing 11th September (next week). If you would like your child to take part in this please read the enclosed information, complete and **return the reply slip to school tomorrow**. For your child to take part they must have a bike that is roadworthy with effective brakes and a cycling helmet which they will need in school for the training course.

It is essential that children know how to bike safely and this is a great opportunity for them to be trained to do so, helping to ensure their safety on the roads.

Yours sincerely

Miss Claire Willows
Headteacher
